

What You Don't Know About Divorce Property Settlement Can Hurt You!

Author of "*DIVORCE: Equitable Distribution / Property Settlement*" tells your audience:

- * Who started Divorce, anyway!
- * How to save time in the legal system
- * How both sides can save money in Property Settlement
- * How to get valuable information at the courthouse...FREE
- * How to prevent "war" by having early documentation
- * Why a CPA is your most vital asset
- * Court Procedures and Court Objections
- * How not to have a Deposition
- * How not to have Mediation
- * How to determine your personal value of joint property items
- * How to emotionally survive
- * How to organize your documents
- * How to monitor attorney bills vs. performance before "the horse is out of the barn"
- * Specific criteria for attorney selection
- * Where to begin...a checklist just for you
- * Why it's important for you to be involved

...And much, much more!

- **Lawyers are \$200-\$500/hour**

Anyone doing a "per hour" job has no incentive to finish quickly. Many Divorce Property Settlement cases drag on for years...years of money going out, but no money coming in. Your bank account goes down; the attorney's bank account goes up.

Getting a Divorce without a basic knowledge of the Property Settlement process is like:

- ...throwing money away
- ...trying to play a new game without reading the rules
- ...putting together furniture without reading the instructions
- ...not taking time to see if all the "pieces" you need are included

Divorce Property Settlement is not "plug-and-play."

- **The Divorce rate is 50%-60%**

According to the media, the divorce rate is 50%-60%. Your audience is loaded with those who suddenly have divorced parents, children, grandchildren and/or coworkers... people who find themselves in the middle of a divorce with nowhere to turn and no information with which to make decisions.

- **Why can't we talk about divorce?**

For some unknown reason, current thinking is that if you talk about divorce or try to help "heal the brokenhearted," you are encouraging divorce. For me, nothing could be further from the truth! Anyone who has ever been through a divorce will tell you that it is one of the worst experiences of their life and that they would not wish a divorce on anyone. So, how about you? Are you willing to talk about divorce and help those who are going through the process?

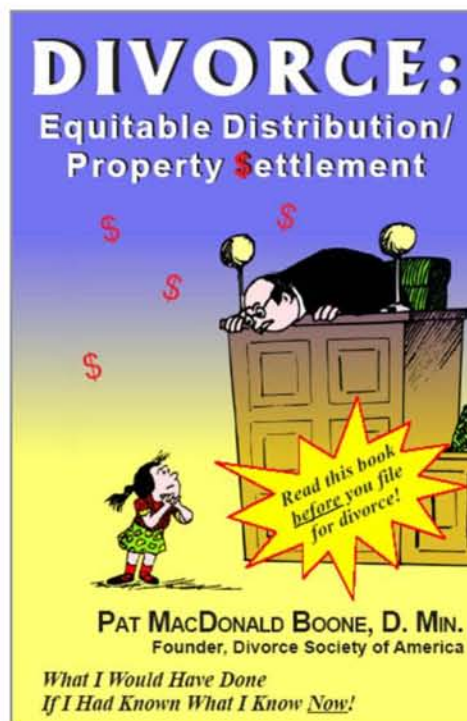

When Dr. Pat Boone experienced four years of Property Settlement (Equitable Distribution) after her divorce, she realized that fellow divorcees and brokenhearted people needed the help and information that she was not able to find...and most importantly, in plain English — not "legalese."

Since writing "*DIVORCE: Equitable Distribution / Property Settlement, What I Would Have Done If I Had Known What I Know Now!*"

Dr. Boone has become known as the "Home Depot" of Divorce because she brings Divorce help and information directly to the people who need it. She has appeared as a guest on TV and radio shows across North America.

Always going the extra mile, she has also established the Divorce Society of America, which maintains a website reference guide of educational and self-help materials about the civil process of divorce and related issues. DSA also provides seminars and speakers for support groups and companies that realize that to improve an employee's personal life improves their work as well.
